Portable Appliance Testing Documentation

Client Details

Believe Housing Park Avenue Close Crook DL15 9JR

Test Period Commencing

15-Aug-2024

Order Number	7466
Certificate Number	-007036
Company Contact	Pamela Wilson

Testing Carried out by

Durham PAT Testing 21 Leesfield Road Meadowfield Durham DH7 8NJ Phone: 0191 3781189 Mobile: 07512303393 Email: info@durhampattesting.co.uk

DURHAM PAT TESTING

Portable Appliance Test Reports Guidance Notes

Section 1: Folder Cover

The cover contains your details and the date(s) work was carried out It will also tell you your certificate number Section 2: Guidance Notes See notes below Section 3: Report Recommendations This will tell you of any potential risks seen during testing or any testing that was unable to be carried out Section 4: Passes and Fails This is your report of all tests carried out. It is in sections by location on your site. A description of each appliance is given, it's test date and tests carried out. Each appliance number corresponds to the label number on the equipment. Any failed appliances will be marked in red. All appliances are visually inspected and in addition will include:

Class I-Earth Continuity and Insulation Resistance Class I Leads-Earth Continuity, Insulation Resistance and Polarity Class II -Insulation Resistance Class III-Visual Inspection only Any failed appliances will include the reasons for the failure and will be marked in red Section 5: Certificate

This is your certificate; you can display it if you wish. It shows a 'valid until' date. This is based on your risk assessment and is shown as 12 months unless otherwise informed

Inspection and Testing of Electrical Equipment Report Guidance Notes

We have completed **Portable Appliance Testing**; the process of "PAT" is carried out under the guidelines of the **Inspection and Testing of Electrical Equipment**, issued by the Institution of Electrical Engineering.

This document, reports our findings. The Guidance Notes advise you about what you need to know.

- 1. Our work has been carried out in accordance with the requirements for the Electricity at Work Act 1989, the recommendations of the Health and Safety at Work Act 1974, the guidelines of the IEE Code of Practice, and the standards of the PAT Testing Network.
- 2. The Inspections and Testing has been completed based on your instructions, to the requirements specified by you. If you haven't made any specifications other than for us to complete the work, then it has been done to the usual standards.
- 3. In section 3, we have addressed any areas of concern or included any specific requirements from you that need to be included in the report. If there is nothing to report this section will be blank.
- 4. Section 4 is our report for any appliances that failed our inspection; they have either been

repaired or retested, or can't be repaired by us. Our recommendations are in the report. If you don't have a record of failed appliances then you should assume your appliances all passed. Appliances that fail completely should be removed from service and repaired (then arrange for us to return to re-test) or disposed of.

5. Determining when the next inspections should be done is your responsibility; we will make our recommendations but the final decision is yours. Unless you tell us otherwise we will presume inspections are to be carried out annually, and our reports will reflect this.
